

LIQUOR OWNERS TO START FIGHT

Hauling Concerns Will Attempt to Replevin \$22,000 Worth of Booze.

Approximately \$22,000 worth of liquor soon will be the subject of litigation in the District Supreme Court.

This amount represents five truck loads which were shipped from Baltimore and consigned to persons in this city on Tuesday, February 26, a few hours after the President signed the revenue bill carrying a "bone-dry" provision applying to the District.

The men who were arrested and charged with violating the law are Harry Smith, William Tremper, Erasmus C. Gladden and Charles Lathrop, all white, and Herbert Lewis and Harvey Robertson, colored. They are all Baltimoreans and were employed by trucking concerns to haul freight between Baltimore and Washington.

Their sentences suspended.

Because of erroneous statements concerning the law went into effect, printed in Washington and Baltimore papers, the court, upon a plea of guilty in each case, suspended a six months' sentence.

The drivers having been released, the owners of the liquor, since it did not reach the consignees, are about to file a petition for a writ of replevin in order to force the police to turn back to them the seized liquor.

Attorneys Lambert and Yeatman appeared for the truck drivers in court, and will doubtless represent the hauling concerns when the litigation over the liquor starts.

DOCTORS FIND REMEDY FOR COLDS AND FLU

Calotabs, the New Nauseless Calomel, Cuts Short Colds and Prevents Flu by Keeping Liver Active.

Physicians have learned from experience, during the epidemic of influenza, that one of the most important factors in the prevention of flu and pneumonia, is to keep the liver active so that the digestive organs may be in perfect working order and the system thereby enabled to throw off colds, check sore throats, and resist serious complications. For this purpose they have found that the new, nausealess calomel, called Calotabs, is far more effective even than the old style calomel, which was formerly the universal favorite, as Calotabs do not weaken nor savor the patient, nor interfere with the appetite and digestion.

At the first sign of a cold or sore throat, doctors recommend one Calotab at bedtime with a swallow of water, that's all. No salts, no nausea, nor the slightest interference with your diet, pleasure, or work. Next morning you wake up feeling fine, your liver is active, and your appetite is keen for a good breakfast. For your protection Calotabs are sold only in original sealed packages, price 35 cents. All druggists recommend and guarantee Calotabs. Remember, your money back if you are not glad you bought Calotabs.—Adv.
